FileVoyager Free

FileVoyager is a dual pane file manager, which allows you to explore the contents of drives, folders, subfolders, as well as copy, move, delete, rename or link files, with ease. The dual pane interface allows you view two folders at the same time and facilitates the file management. Main features: - Folder browser and file manager Explorer interface allows you to view two folders in parallel and quickly access the commands thanks to the panel in the center - You can switch the folder view from thumbnails to list or detail table - Each pane features individual commands and two tabs, namely, Exploration and Visualization, the latter allowing you to open any file as text - The Visualization tab prompts the embedded viewer, a function which allows you to open any file in text mode - You can view the file as binary characters, in HEX code, U-Hex, Unicode, ANSI or Web format. It allows you to enable lexers or syntax highlighting - The program supports packing to various formats, including ZIP, 7z, Tar, WIM and unpacking archived files, such as ARJ, XAR, RAR, LZMA, ISO - The program can work with certain audio and video codecs provided by WMP and VLC, in order to play media files - The program supports mapping a network folder, creating shortcuts or find files - FileVoyager is a reliable tool for file management, which allows you to explore the contents of drives, folders, subfolders, as well as copy, move, delete, rename or link files, with ease. The dual pane interface allows you view two folders at the same time and facilitates the file management. The Explorer interface allows you view two folders in parallel and quickly access the commands thanks to the panel in the center. You can switch the folder view from thumbnails to list or detail table. Moreover, the area above the file list can display the icons/thumbnails of files. Main features: Folder browser and file manager Explorer interface allows you view two folders in parallel and quickly access the commands thanks to the panel in the center. You can switch the folder view from thumbnails to list or detail table. Moreover, the area above the file list can display the icons/thumbnails of files. Main features: Folder browser and file manager Explorer interface allows you view two folders in parallel and quickly access the commands thanks to the panel in the center.
