These special "Killer" boot disks can be used on any kind of computer, including Windows XP, Windows Vista, Windows 7, Windows 8, MAC OS X, and all other operating systems, etc. Please visit the following link for more info: Hello. I have a problem, I started to run rexec of my Debian 6.0.7 wheezy 32 bits, after 15 minutes or so I have to reboot the machine and after the reboot I have only a black screen with a white text saying: I am Debian and version 6.0.7. After a manual shutdown by powerbutton I get in the GDM. I have my video card as a nvidia geforce 440 Go, how can I avoid that problem? File SynchronizationSoftware : SyncCity Pro 10.5.0.1298 SyncCity is a file synchronizer that makes it easy to synchronize any number of directories and files over a local area network.
