- Normal - These are the default characters of the game. They are the basic characters with simple attacks.
- Specialists - These characters have stronger initial attacks and special abilities.
- Triumphant Lords - These special characters have more abilities than normal characters, but not enough to exhaust them instantly.

MULTIPLAYER AND MULTIPLE MODES

- Single-player online where you fight against endless enemies in endless dungeons. This is the most endurable online mode, so you can enjoy it even without a partner.
- Multiplayer online - You can team up with up to three friends and go on an adventure through the Land Between. The skilled and coordinated allied team can even defeat overwhelming forces.
- Asynchronous online - This function allows you to experience the online and offline aspects of the

game in various ways. In the asynchronous online part, for example, it is possible for the other parts of the game to be opened, but the offline parts cannot be accessed.

BE THE MOST BRAVE AND GRACEFUL HERO... IN THE MAIN QUESTS OF THE GAME!

- The main quest involves adventure missions and exploration quests. In these quests, you must protect a great treasure of the Land Between, defeat the giants who aim to destroy it, and become an Elden Lord.
